

SPECIFICATION FOR ANELEX 52384 TAPE PUNCH

An ideal, compact, easy-to-use, hand punch for punching either six or eight lines per inch format tapes.

1. Will punch 12 channels in $1\frac{5}{8}$ " wide tape.
2. Will accommodate Mylar or paper tape.
3. Punches .070" round holes either six to the inch or eight to the inch.
4. Tape is advanced by means of a rotating knob.
5. Punch has spring return.
6. Dies are precisely located under punch by a positive action detent.
7. Dimensions: $6\frac{1}{4}$ " long, $3\frac{1}{2}$ " wide, 4" high.
8. Price, each \$70.00

Analex Format Tapes are also available in quantities of 25 per box. Tapes measure $1\frac{5}{8}$ " wide and are 24" long. Made of Mylar between paper, they are lined for both six or eight punches per inch. Tapes are prepunched with sprocket holes.

Price per box of 25, Part Number 87723 \$8.00

Mr. T. Nelson
Systems Consultant
Box 32
Schooleys, New Jersey

Dear Mr. Nelson:

Thank you for your inquiry regarding the Anelex
Format Tape Punch.

The model shown in the releases has been discontinued since a newer, lower cost model has been designed. This new model, our #52384, performs the same functions as our earlier model and does them just as quickly and precisely. And it only costs \$70.00.

A descriptive sheet is enclosed for your further information. Deliveries will start in about 90 days.

We would like, also, to call your attention to the immediate availability of Anelex Format Tapes. These are standard size, of highest quality, and are imprinted so as to make easy their punchings for either six or eight line per inch paper feeds.

Sincerely yours,

ANELEX CORPORATION
